

[MICAC25] Minutes Week 9 & 10

Giovanni Menon Raphael Toubol Christopher Nyandoro

13th April - 27th May 2025

Abstract

This document provides a summary of the meetings that have taken place during the ninth and tenth weeks.

Summary

First Meeting

In the first meeting, our aim was to define the content requirements for the report generated by the tool as output and to improve the code structure based on the feedback received from the other students.

Second Meeting

In the second meeting, the team discussed the feedback received on the interim submission and defined the necessary improvements for the final submission. The following task based on the feedback was created:

- Report: Citation Improvements, Structure Improvements, Clarify scope and content, Creation of Diagram.
- NAS CLI: Improved readability of the output format with a complete refactoring.
- Test and Evaluation phase.
